Bowl Food

We describe our bowl food as a walking individually served hot fork buffet. They are an easy to eat, full of flavour, individually garnished meal served in a 4" white rice bowl with a fork. The bowls are then placed on trays and walked around by waiting staff to your guests so they receive their very own portion and do not have to line up for food. This is ideal for a stand up reception or party and is suggested to follow 3 to 4 canapés. We would suggest 1.5 bowls per person if served with canapés first, with a choice of 3 to 4 bowls on offer.
